

## ARRL Brochures to help publicize MCRC Ham Radio Classes

MCRC Members: The insert below shows the on-line ARRL Store and its side bar with selection options. The RED oval points out the selection for Brochures.

The screenshot shows the ARRL Store website. The top navigation bar includes links for Home, On The Air, Licensing, Education & Training, Membership, Regulatory & Advocacy, Public Service, Technology, Get Involved, ARRL Store, About ARRL, and News & Features. The main content area is titled 'ARRL Store' and features a 'What's New' section with two featured items: 'More Arduino Projects for Ham Radio' and 'Grounding and Bonding for the Radio Amateur'. A left sidebar contains a list of product categories, with 'Brochures, Handouts & Exhibit Supplies' highlighted by a red oval. The website also includes a search bar, a shopping cart icon, and a user profile section for 'Hello Kimball'.

When you order something from the ARRL, please also select the 'Brochures' area and then order four (4) packs of any of the items shown below on the next page:

**Note:** These are all FREE from ARRL, but you can only order 4 at one time.

We need to set up a 'stock pile' of these fliers to help advertise our classes and our club, so please include a group of 4 with each order you place.

Bring the fliers to the MCRC meetings and give them to our Administrative Assistant, Denise for distribution to the appropriate library as classes develop.

Thank you! kw

### What is Ham Radio?

- It's a fun and challenging hobby that connects people from all over the world. The rewards are huge in a hobby that's always changing and growing.
- It's a way to learn about electronics, communications, and public service. Ham radio operators help save lives and property.
